Professional Profile

Senior contractor and freelance software engineer with 20+ years of experience in full-stack development and more recent specialization in modern SAP development across SAP BTP, S/4HANA, ABAP, CDS, OData, Fiori/UI5, and enterprise API integration.

Strong fit for strict HR screening because the profile combines clearly documented contract experience, long-term delivery responsibility, modern SAP skills, and stable full-stack engineering depth across SAP and web platforms.

Brings a quality-first delivery style with focus on Clean Core, maintainability, refactoring, scalable architecture, and production-ready solutions instead of short-term fixes.

Core Value for Contract Roles

- Available as Contractor / Freelancer for SAP full-stack development, technical consulting, modernization, integration, and architecture-oriented delivery.
- Combines SAP backend and extension work with modern frontend and integration capabilities in JavaScript, TypeScript, React, Node.js, REST APIs, and Drupal/PHP environments.
- Experienced in contract-based SAP delivery, hypercare support, modernization of legacy applications, and business-facing technical collaboration.
- Works effectively across German and English-speaking teams with business stakeholders, developers, and solution managers.

Key Skills

- SAP: ABAP, ABAP Objects, ABAP SQL, CDS Views, OData v2/v4, RAP, CAP, SAP BTP, SAP UI5, Fiori Elements, S/4HANA Public Cloud, developer extensibility, side-by-side extensibility, Clean Core.
- Web and Integration: JavaScript, TypeScript, React, Node.js, Next.js, Express.js, REST APIs, PHP, Drupal, Composer, PHPUnit, Jest.
- Data and Infrastructure: MySQL, MariaDB, PostgreSQL, Linux administration, Apache, cloud-oriented infrastructure thinking.
- Delivery Methods: Clean Code, SOLID, refactoring, code reviews, architecture documentation, Scrum, Jira, OpenProject, problem solving.

Professional Experience

Senior SAP-Developer, Intecsoft GmbH & Co
Dresden, Germany

01/2025 to Present

Contract-based SAP development role focused on modernization, integration, and software quality in S/4HANA-related projects.

- Improved backend API interfaces in an S/4HANA project to support integration and system readiness.
- Supported productive web services and API interfaces during hypercare in the FI environment.
- Refactored an undocumented SAP Business Suite Dynpro application into object-oriented ABAP to improve maintainability and future S/4HANA compatibility in IS-U.
- Worked closely with business teams, solution managers, and developers to align implementation with business requirements.

Technologies

ABAP Objects, ABAP SQL, CDS Views, OData, SAP BTP, REST, Fiori/UI, S/4HANA, Clean Core.

Technical Lead / IT Specialist, Ferienhausvermittlung fincaferien
Düsseldorf, Germany

03/2025 to Present

Lead technical modernization and digital transformation of a multi-site vacation rental platform based on Drupal.

- Designed and implemented a cloud-based infrastructure strategy to improve scalability and maintainability.
- Defined a modernization roadmap for legacy platform architecture with API-driven integrations and service-oriented design.
- Developed and integrated enterprise APIs connecting business services with the Drupal CMS.
- Drove digitalization initiatives across booking, content, and operational workflows.

Technologies

Drupal, PHP, cloud infrastructure, REST APIs, automation, web technologies.

SAP Technical Consultant, SAP Full-Stack Development, BA Business Advice GmbH
Oldenburg, Germany

02/2022 to 12/2024

SAP consulting and development focused on ABAP, UI5, Fiori, S/4HANA, SAP BTP, and modern extension models.

- Developed and extended SAP applications using ABAP, CDS, OData, and UI5.
- Contributed to ERP-to-S/4HANA migration and MII projects.
- Refactored existing applications for maintainability, future readiness, and clean architecture.
- Built UI5 Freestyle and Fiori Elements applications.
- Worked on side-by-side and developer extensibility scenarios in S/4HANA Public Cloud.
- Contributed to SAP BTP, RAP, and CAP initiatives and used JavaScript, TypeScript, and Jest in SAP frontend development.

Technologies

SAP ABAP, CDS, OData v2/v4, SAP UI5, Fiori Elements, RAP, CAP, SAP BTP, S/4HANA Public Cloud, JavaScript, TypeScript, Jest.

Software Developer and Linux administrator, Sengicon GmbH
Leipzig, Germany

02/2021 to 01/2022

Full-stack development in an Industry 4.0 environment with React frontends, PHP backends, API integration, and Linux-based infrastructure. .

- Converted an outdated PHP web application into a modern PHP REST backend connected to a newly created React web frontend.
- Developed React-based user interfaces and modernized existing PHP applications.
- Built and integrated REST-based APIs with PHP.
- Modeled databases with MySQL, MariaDB, and PostgreSQL and handled testing with PHPUnit and Jest.
- Installed, configured, and administered Linux and LAMP environments.

Technologies

React, JavaScript, PHP, REST, PHPUnit, Jest, Linux, Apache, MySQL, MariaDB, PostgreSQL, Composer.

Webmaster / Web Developer, Ferienhaus-Vermittlung fincaferien.de GmbH
Bockenem, Germany

04/2004 to 12/2019

Long-term responsibility for web development, operations, optimization, and technical infrastructure.

- Developed and maintained websites and web applications with PHP, Drupal, HTML, and CSS.
- Customized and extended Drupal modules and managed Linux, Samba, and network environments.
- Used Git and Jira in development and project workflows.
- Increased organic traffic through technical SEO improvements, website performance, and usability optimization.
- Improved user experience and reduced bounce rate through usability methods

Technologies

PHP, Drupal 7, HTML, CSS, Git, Jira, Linux, Samba, SEO/SEA.

Selected SAP-Relevant Highlights

- Contract-based SAP role since 01/2025 with active delivery in S/4HANA-related projects.
- SAP-focused consulting and development experience since 2022 across ABAP, CDS, OData, UI5, Fiori, RAP, CAP, SAP BTP, and S/4HANA Public Cloud.
- Experience in S/4HANA migration, modernization, Business Suite refactoring, and API integration.
- Distinct profile at the intersection of SAP engineering and modern web development.
